

## Aluminum Arbor Installation

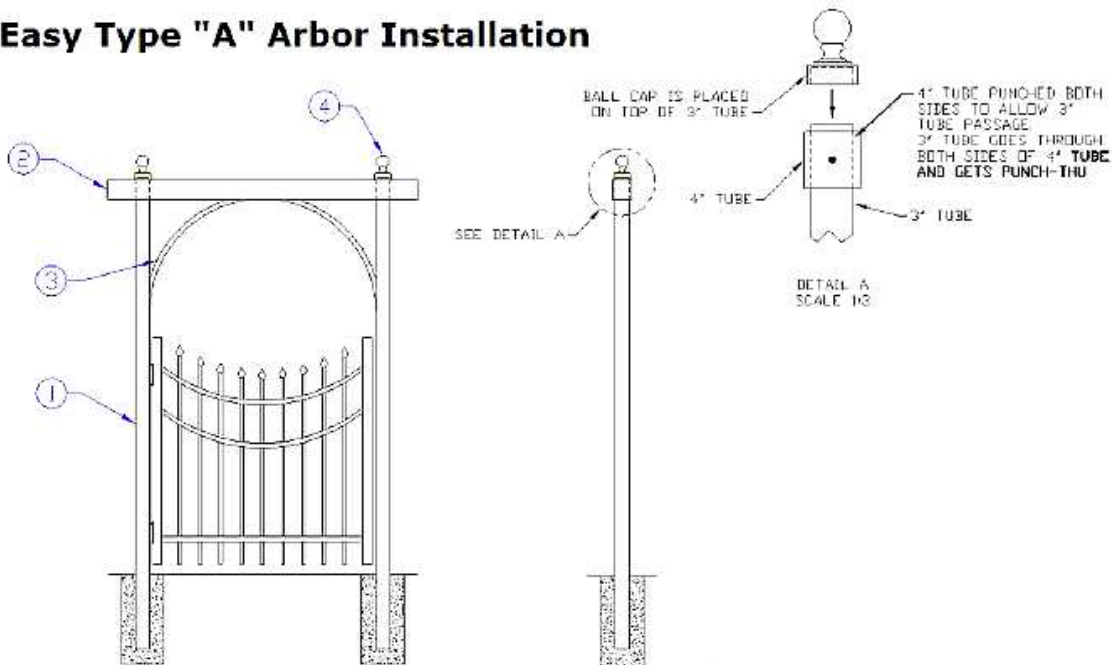

Our aluminum arbors are the perfect compliment to any entrance or exit to your property. Easy to install, these arbors are typically ordered with one of our single-swing gates (4'wide, 5'wide or 6'wide).

Single Gates are not automatically included with each arbor. However, you will not need to purchase gate posts because the arbor side posts will "act" as the gate posts.

### Type A Arbor - Single

Arbors are ideal for beautifying and enhancing the appearance of your aluminum fence or aluminum pool fence. Beautiful designs and fine craftsmanship, fabricated from the same high quality, maintenance-free aluminum as our aluminum fence systems. The gate is not included with the arbor. Gates must be purchased separately.

### Easy Type "A" Arbor Installation

## **Type B Arbor – Double Enclosed**

Arbors are ideal for beautifying and enhancing the appearance of your aluminum fence or aluminum pool fence. Beautiful designs and fine craftsmanship, fabricated from the same high quality, maintenance-free aluminum as our aluminum fence systems. The gate is not included with the arbor. Gates must be purchased separately.
